DON'T LET INNOVATION ●●●● LIMIT YOU!

With colorful design stirring around the Peppermill Hotel & Casino in Reno, Nevada, they requested a retrofit to a vertical light sculpture that hangs from the ceiling in stair wells around the casino floor. These Tube-Light sculptures hang about 20-feet long, packed with additional neon strips to match other elements. The uniqueness of this piece fits perfectly with the aesthetics of the casino and again, *WE* have allowed them to see their vision through as we are one of the few places left that still make TubeLights!
